#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) Responsive to communication(s) filed on 26 February 2007.
- 2a) This action is FINAL.                    2b) This action is non-final.
- 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

#### Disposition of Claims

## DETAILED ACTION

Claims 19-23 and 26-40 are pending as amended 10/12/06

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 19-23 and 26-40 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement, and enablement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

There is no support for the limitation “rotor is essentially spherical in shape” in the specification and claims as originally filed. On the contrary, paragraph of the Pre-Grant Publication discloses that the rotor central portion is cylindrical.

“Essentially spherical” would require the shape to be close to a sphere by appearance and by function, except for those that “do not materially affect the basic and novel characteristic(s)” such as such as defects [MPEP 2111.03: see “consisting essentially of”]. Applicant’s inventive rotor requires a central cylindrical portion with recesses on either ends, which make the rotor substantially non-spherical. Thus, the rotor cannot be spherical and have cylindrical portions and recesses. Figure 1 A-C do not appear as spherical.

There is also no support for the negative limitation "vaneless".

Claim 40 recites the rotor as free to rotate in radial and axial direction, which is also unsupported. Paragraphs 29, 36, 37 and 72 all stress the need for the rotor to rotate around one axis.

### ***Response to Arguments***

Applicant's arguments are not persuasive with respect to the newly added limitations. However the art rejections are withdrawn, because in both Schoendorfer and Cooper would not work if the rotor is spherical, and therefore.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
